Friday	October 28	(4 hr)	Visit to Aesculapius Room of Corinth followed by medical lecture and post-test.

FACULTY

Bruce H. Woolley, Director, BYU MacDonald Health Center
Other faculty to be announced

This drawing of a Utah mule deer by Clark Bronson of Woodland, Summit County, won top honors in professional division of international art contest.

Utah Artist Wins Honors

Clark E. Bronson, of Woodland, Summit County, has been awarded top honors in the professional division in the annual competition of Art Instruction Schools.

Mr. Bronson's drawing of a mule deer on the run won in competition with hundreds of excellent entries from every

state in the U.S. and provinces in Canada. He also has gained recognition with his Utah Fish and Game magazine covers.

He is a graduate of Art Instruction Schools, the world's largest home study art school.

Expect Another Utah Tax Hike, Commission Say

Owners of Utah homes and other real estate no sooner had completed paying their 1964 taxes Tuesday when it was disclosed that many can expect another valuation hike in 1965.

Salt Lake County taxpayers are the exception. They experienced a severe increase in 1964, when a two-step upward adjustment was made, they will enjoy a respite in 1965 as far as valuation is concerned.

But other Wasatch Front counties applied only the first of five upward adjustments planned to equalize their home and building valuations with prevailing market prices.

Because of this, property owners in Tooele, Davis, Utah, Weber, Box Elder and Cache can expect another increase in 1965 corresponding with the 1964 increase.

The increases—or, in some cases, decreases—will vary according to age, construction materials and use. Some types of buildings will increase slightly and others at a higher rate.

MARKET VALUE

In the case of a 25-year-old frame home which would cost \$10,000 to replace at 1960 prices, the 1964 market value in these six counties was fixed at \$6,600.
